

## POSITION TITLE

Aviation Project Manager

## RESPONSIBILITIES

- Manage engineering projects, including the scoping, design, schedule, budgets, resources, quality control, and client relations.
- Perform engineering calculations and analysis for aviation and civil designs at general, regional, and international aviation facilities utilizing Federal Aviation Administration (FAA) and Georgia Department of Transportation (GDOT) design specifications.
- Serve as the primary point-of-contact for clients, including project planning, scoping, scheduling, and funding coordination; facility and project planning; subcontracting, funding application; and coordination with FAA and GDOT.
- Lead the project team to provide deliverables and services on-time, within budget, and to the client's satisfaction.
- Maintain quality control and assurance measures per Croy standards and requirements and provide oversight in development and production of project drawings, specifications, documents, and reports.

## PREFERRED QUALIFICATIONS

- Bachelor's degree in engineering or an engineering-related field from an accredited higher education institution
- Five years of aviation or civil engineering experience
  - Master's degree and four years of aviation or civil engineering experience acceptable in lieu of Bachelor's degree and five years of experience.
- Professional Engineer (PE) registration in Georgia (required)
  - Consideration will be given to registered engineers licensed in another state with the expectation that a Georgia Professional Engineer license is applied for at the time of on-boarding.

## ABOUT THE ROLE

- Position Location – Marietta, Ga.
- Employment Status – Full-time
- Travel – 20% (client and site visits, coordination meetings, technical conferences)

## ABOUT CROY

Croy currently serves as the engineering consultant for more than 30 airports across the Southeast – more than any other consulting engineering firm in Georgia. We are a company driven by community. From planning runways, highways, or greenways to designing, surveying, or managing construction projects – we've got your back. It's why our clients are our top priority – because communities aren't shaped just by projects, but by people. It's why we're committed to being approachable, accessible, and responsive. It's why as your needs change, challenges arise, or timelines get shortened, we're your first phone call. And, it's why we give back through volunteering, mentoring, and supporting non-profits. Because the places where you live, work, and play – we call them home, too. We believe in engineering the extra mile. It's what we do.
